

# AC or DC Hour Meter

Part No. :HRM1248ADRRSP, HRM90230ACRRSP

Provides precise tamper proof record of operating time of engines and other electromechanical devices. It mounts in 1.45" x .95" cut out. Typical use is to monitor running time for vehicles and machinery for maintenance scheduling, warranty, rental use and service records. Convenient screw mount. Also includes snap-on retainer mount.

## Features

- Hermetically sealed to keep out dirt and corrosive gases
- 6 digit display
- Low power consumption
- No battery needed
- Accurate quartz crystal oscillator
- Solid state drive circuit
- Shock resistant to 8g
- 1/4" Quick Connect terminals

## Technical Specifications

- Voltage:  
12-48V DC/AC - HRM1248ADRRSP  
120-230VAC (50-60Hz) - HRM90230ACRRSP
- Power consumption:  
2 mA @ 12VDC  
10 mA @ 48VDC  
350mA @ 120VAC (Avg.)
- Shock Operating: 8 G (10-75HZ 1-8 G)
- Accuracy:  $\pm 1$  Minute per 24 hours
- Operating Temp:  $-25^{\circ}\text{C} - 65^{\circ}$
- Panel cutout: 1.45" x .95"
- UL Recognized Component
