

"The Optimum" Press/Vac Pump

Part No. PV36P19M120A

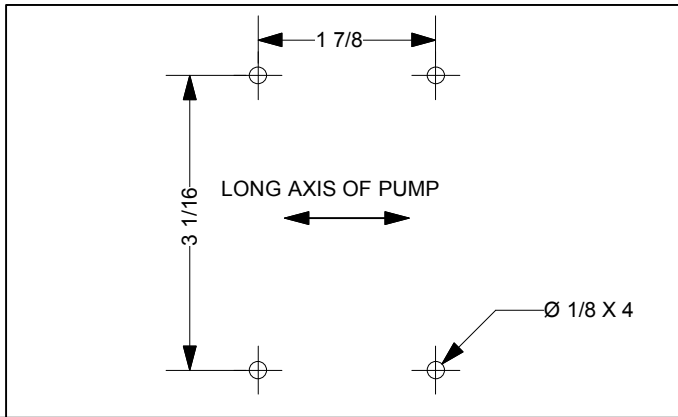

This small but powerful pump can be used in a variety of industrial and consumer applications. Air pumps can be used in machine tools, material testing systems, air samplers, nebulizers, E.N.T. equipment, airbrushing, aeration, inflating air mattresses, sports equipment, pool toys and many others.

Features

- Oil-less air compressor
- Motor comes with cooling fan
- and thermal protection
- Teflon® coated piston

Technical Specifications

- Head Configuration: Pressure/Vacuum
- Voltage: 115VAC (50/60Hz)
- Free Flow: 42 SCFH
- Maximum Vacuum: 25 in. (635mm) Hg
- Maximum Pressure: 85 PSI
- Connection Type: Tube
- Dimensions: 3.7"(W) x 4.6"(H) x 5.5"(L)
- Installation Hole Centers: 3-1/16" x 1-7/8"
- Weight: 3.75 lbs.
- Motor Power: 40W
- Motor Type: Capacitor start
