

Pressure/Vacuum Pump

Part No. PV27P19M120A

In addition to serving as the replacement pump for the Bubbler Air Supply (BASCR-30), this pump can be used in many other applications such as medical and dental equipment, oxygen concentrator and ozone generator, air brushing, etc. Comes with run capacitor and four rubber mounting feet.

Features

- Thermal protection
- Oil-less, non-lube piston & cylinder
- Balanced for quiet, smooth operation
- Teflon® compound piston ring
- Viton valve
- Die cast aluminum for small size, light weight
- Comes with capacitor, rubber mounting feet
- Built-in unloader relieves head pressure after power failures or blips.

Technical Specifications

- Voltage: 115VAC, 60Hz
- Current: 312 mA
- Power: 36.2 Watts
- Motor: 4P, Condenser Run Type
- Capacitor: 6.0 μ F(-5,+10%) 250VAC
- Free Flow Rate: 9 SCFH
- Max. Pressure: 27 psi
- Max. Vacuum: 19 in (485mm) Hg
- Thermal Protection: Auto reset @ 135°C
- Ambient Temperature 0~40°C
- Weight: 3.1 lbs. (1.4kg)
