

EZ FLARE

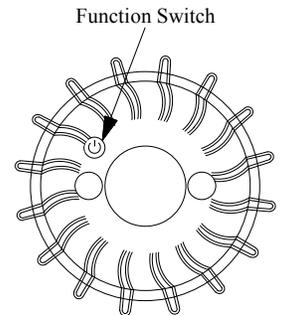

Part No. IP2000A

The EZ Flare Electronic LED Emergency Flare is a vital piece of equipment to ensure your safety. Whether you are a first responder, a boater, a driver of any vehicle or a hiker, the EZ Flare should be a part of your emergency plan. It provides a warning light for every type of emergency.

Battery Life

- Triple Blink 10 hours
- Double Blink 30 hours
- Single Blink 100 hours
- Rotate 15 hours
- Alternating 10 hours
- SOS 24 hours
- Solid- High 8 hours
- Solid- Low 60 hours

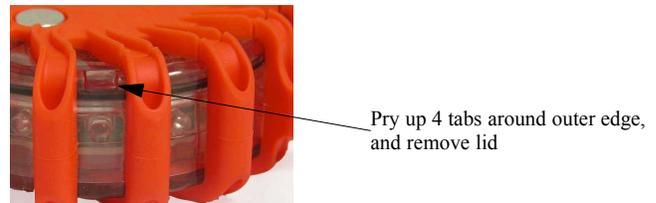

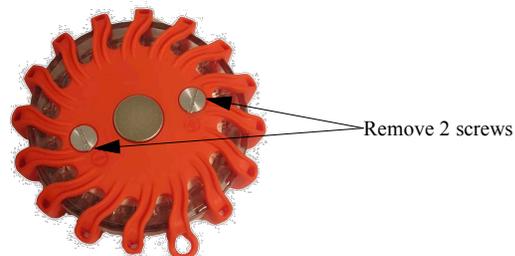

Features

This Flare is an economical alternative to conventional flares & reflective triangles

- Compact & highly visible
- Easy to use with the convenient smart switch on the face of the unit to turn on and off, and cycle through the 9 flash and light patterns. EZ Flare remembers the last pattern used and restarts at that pattern
- The flare contains a very strong magnet for placement on your vehicle, but will not damage your vehicle's finish
- Nine different light and flash patterns with a battery that can last anywhere from 8 to 100 hours depending on the flash pattern
- Flash pattern cycles through:
Rotate- Triple Blink- Single Blink- Alternating- SOS- Solid on High- Solid on Low- 2 LED Flashlight- 4 LED Flashlight
- Holding the function button down will turn off the EZ Flare. Flare will flash 6 times then turn off
- 3v Lithium Battery included

Battery change Instructions

Replace battery. Ensure that the tabs are aligned when replacing the lid
